Analysis of ARO FY 60 reports

DDP area

FY 58	records increased	49%
59	records increased	7%
60	records decreased	28%

Decrease due to recognition of Records Mgt Program; appt of RMO's; developed schedules; issued memos and procedures, established offices of record for support material thereby eliminating need for keeping at all levels; greater utilization of the Records Ctr facilities; greater cooperation with RMS and overall esprit-de-corps in DDP
